Spisak radova Dr Dragutina Djurovica do 1998.godine

1.Jovanovic M., Djurovic D.:*Determination de l'heure en 1961.Corrections de la pendule fondamentale et leurs ecarts.* Bull.Astron.Obs.Belgrade,**XXV**,1,1962.

2.Brkic Z., Djurovic D., Jovanovic M.:*Determinations de l'heure en 1962. Corrections de la pendule fondamentale et leurs ecarts.* Bull.Astron.Obs. Belgrade, **XXVI**,1,1967.

3.Brkic Z.,Djurovic D., Jovanovic M., Momcilovic R.:*Determination de l'heure en 1963.Corrections de la pendule fondamentale et leurs ecarts.*Bull. Astron. Obs. Belgrade **XXVI**, 1, 1967.

4.Brkic Z., Djurovic D., Jovanovic M., Momcilovic R.:*Determination astronomique de l'heure en 1964.* Bull. Astron. Obs. Belgrade, **XXVI**, 1, 1967.

5.Brkic Z., Djurovic D., Simic M.: *L'heure demi-definitive (systeme TU2) en* $0^s.0001$ *a 1964.*. Bull. Astron. Obs. Belgrade, **XXVI**, 1, 1967.

6.Djurovic D.:*Les problemes de la determination et de la conservation de l'heure a Belgrade*. Proc. National Conf.Astron. Roumanie, Bucarest, 1968.

7.Brkic Z., Djurovic D., Simic M.: *L'heure demi-definitive (systeme TU2) en* $0^s.0001$ *a 1965.* Bull. Astron. Obs. Belgrade, **XXVII**, 2, 1969.

8.Brkic Z., Djurovic D., Simic M.: *L'heure demi-definitive (systeme TU2) en* $0^s.0001$ *a 1966.* Bull. Astron. Obs. Belgrade, **XXVII**, 2, 1969.

9.Brkic Z., Djurovic D., Simic M.: *L'heure demi-definitive (systeme TU2) en* 0^s0001 *a 1967.*Bull. Astron. Obs. Belgrade, **XXVII**, 2, 1969.

10.Djurovic D., Simic M.:*L'heure demi-definitive (systeme TU2) en* 0·0001 *a 1968.* Bull. Astron. Obs. Belgrade, **XXVII**, 2, 1969.

11.Brkic Z., Djurovic D., Jovanovic M., Momcilovic R.: *Determination astronomique de l'heure en 1965.*Bull. Astron. Obs. Belgrade, **XXVII**, 2, 1969.

12.Brkic Z., Djurovic D., Jovanovic M.:*Determination astronomique de l'heure en 1966.* Bull. Astron. Obs. Belgrade, **XXVII**, 2, 1969.

13. Brkic Z., Djurovic D., Jovanovic M.:*Determination astronomique de l'heure en 1967 a* 20^h *TU (systeme TU2).*Bull. Astron. Obs. Belgrade, **XXVII**, 2, 1969.

14.Djurovic D.:*Determination astronomique de l'heure en 1968 a* 20^h *(systeme TU2).* Bull. Astron. Obs. Belgrade, **XXVII**, 2, 1969.

15.Djurovic D.,Radogostic V.:*Application de la methode des paires a la determination astronomique de l'heure*. Publ. Dept. Astron. Belgrade, 1, 1969.

16.Djurovic D., Radogostic V.:*Les erreurs de l'inclinaison et de l' azimut aux instruments des passages.* Publ. Dept. Astron. Belgrade, 1, 1969.

17.Djurovic D., Brkic Z.: *Etude des variations de la collimation de l'instrument des passages BAMBERG No 63131 d' apres des observations astronomiques.* Bull. Astron. Obs. Belgrade, **XXVII**, 2, 1969.

18. Djurovic D.:*Les erreurs systhematiques de la determination de l'epaisseur du contact d'un micrometre impersonnel.* Bull. Astron. Obs. Belgrade, **XXVII**, 2, 1969.

19.Djurovic D.:*L'examen du niveau a bulle de l' instrument des passages.* Bull. Astron. Obs. Belgrade, **XXVII**, 2, 1969.

20. Djurovic D.: *Odredjivanje rektascenzija zvezda iz posmatranja casovnih sluzbi.* Publ. Astron. Obs. Beograd, 16,1970.

21.Djurovic D.:*Precision des divers types d'instrument appliques aux services de l'heure.* Bull. Astron. Obs. Belgrade, **XXVIII**, F.2,1970.

22. Djurovic D.:*Variations saisonnieres de la rotation de la Terre et les systemes de l'heure en 1968.*Bull. Astron. Obs. Belgrade, **XXVIII**,F.2, 1970.

23.Djurovic D.:*Determination des coordonnees du pole instantane d'apres les resultats des services de l'heure.*Bull. Astron. Obs. Belgrade, **XXVIII**, F.2,1970.

24.Djurovic D.:*Relations entre l'heure atomique,des ephemerides et universelle en 1968.* Publ. Dept. Astron. Belgrade, 2, 1971.

25. Djurovic D., Melchior P.:*Sur la recherche des termes de maree dans la rotation de la Terre.* Bull. classe sci. Accad. Roy. de Belgique,LVIII, 1248-1257, 1972.

26.Djurovic D., Radogostic V.: *Pritcshiny osnovnih oshibok v astronomitcsheskom opredelenii vremeni.* Troudy 18-oj astrometritcsheskoj konferencii SSSR, Poulkovo ,Leningrad, 1973.

27. Djurovic D.:*Sur un terme harmonique de 122 jours dans la rotation de la Terre et dans le mouvement du pole.* Ciel et Terre, **90**, 1, 1974, Bruxelles.

28a.Djurovic D.:*Promene brzine Zemljine rotacije.* Glas SANU, **CCXCI**, 37, 1974.

29. Djurovic D.:*Determination du nombre de Love k et du facteur* $\Lambda=$ *1+k-l affectants des observations du temps universel.* Astron. Astrophys.,**47**, 1974.

30a. Djurovic D.:*Promene longituda i latituda.Relativno pomeranje kontinenata.* Glas SANU, CCXCI,41, 1975.

31.Djurovic D.:*Les termes de maree dans le temps universel.*Marees Terrestres: Bull.Obs., Centre international des marees terrestres,**IV**, 3, Bruxelles, 1975.

32. Djurovic D.:*Coordonnees du pole et TU1-TUC pour l'intervalle 1967-1974.* Marees Terrestres:Bull. Obs., Centre international des marees terrestres,**IV**, 3, Bruxelles, 1975.

33. Djurovic D.:*Les termes harmoniques dans le mouvement du pole.* Bull. Astron. Belgrade, 126,1975.

28b.Djurovic D.:*Variations de la vitesse de rotation de la Terre.* Bull. SANU, **LV**, 9, 1976.

30b. Djurovic D.:*Variations des longitudes et des latitudes. Deplacement relatif des continents.*Bull. SANU, **LV**,9, 1976.

34. Djurovic D.:*Corrections des ascensions droites 245 etoilles du catalogue FK4.* Bull. Astron. Belgrade, 127, 1976.

35.Djurovic D.:*Amplitudes des composantes de* ΔTs *et leur depandance de la position geographique.*Ciel et Terre, **93**, 2, 1977, Bruxelles.

36.Djurovic D.:*Sur la conservation d'un systeme de reference dans lequel on exprime x, y et TU1-TUC.*Publ. Dept. Astron. Belgrade, 8, 1978.

37. Djurovic D.:*Sur l'application de la methode de Nemiro pour le calcul des ascensions droites.* Publ. Dept. Astron. Belgrade, 8, 1978.

38.Djurovic D.:*Polar coordinates and UT1-UTC from PZT observations.* "Time and Earth's Rotation", Proc.IAU. Symp. held in Cadiz (Spain), 1978.

39a. Olevic D., Djurovic D.:*Some results of statistical study of Jaccobi constant.* Bull SANU, **LXIV**, 10, 1979.

39b. Olevic D. Djurovic D.:*Neki rezultati statistickog ispitivanja Jakobijeve konstante.* Glas SANU, **CCCXI**, 44, 1979.

40. Djurovic D.:*Secular and periodical variations of UT2-TAI.*Publ. Dept. Astron. Belgrade, 9, 1979.

41.Djurovic D.:*Variations of the seasonal inequalities and irregular fluctuations of UT2-TAI.*Publ. Dept. Astron. Belgrade, 9, 1979.

42.Olevic D., Djurovic D.: *Distributions of the Jaccobi constant and kinetic moment of the Palomar-Leiden Survey asteroids.* Publ. Dept. Astron. Belgrade, 9 1979.

43. Olevic D., Djurovic D.:*The periodicity of residuals $\Delta\rho$ and $\Delta\theta$ of the double star ADS 11520.* Publ. Dept. Astron. Belgrade, 11 , 1981.

44. Djurovic D.:Solar Activity and Earth's Rotation. Astron. Astrophys.**100**, 1981.

45. Djurovic D.:*Correlation between solar activity and universal time variations.* Proc.VI Europ. Meet. "Sun and Planetary System", held in Dubrovnik, 1981.

46. Olevic D., Djurovic D.: *Contribution to the statistical analysis of Kirkwood's gapes.* Bull. SANU, **LXXIX**, 12, 1982.

47.Djurovic D.:*Preliminary investigation of Belgrade longitude variations.* Publ. Dept.Astron. Belgrade, 12, 1983.

48.Djurovic D.:*Short-period geomagnetic, atmospheric and Earth's rotation variations.*Astron.Astrophys. **118**, 1983.

49.Djurovic D.,Stajic D.:*Common short-period cyclic variations of the atmospheric angular momentum and length of day.* Bull. SANU 13, 1983.

50.Djurovic D., Stajic D.:*Secular and decade fluctuations of the geomagnetic field and universal time UT1.* Bull. Astron. Inst. Czechoslovakia 36, 1985.

51.Djurovic D.,Stajic D.: *The 75-day cyclic variation of the solar activity and geommagnetic field intensity.*Bull. SANU 15, 1986.

52.Djurovic D.: *The atmospheric circulation, the Earth's rotation and solar activity.* "Earth's Rotation: solved and unsolved problems" , Proc. of NATO Workshop held in Bonas, Toulouse, 1985.

53. Pâquet P., Djurovic D., Techy C.: *Agreement in polar motion measurements during MERIT campaign.* Proc. of MERIT Workshop held in Columbus, Ohio, U.S.A., 1985.

54.Djurovic D.: *The determination of the longitude de Belgrade for the period 1964–1984.* Bull. Astron. Obs. Belgrade 136, 1985.

55.Djurovic D., Stajic D.: *Short-period cyclic variations of the solar activity and their geophysical consequences.* Publ. Dept. Astron. Belgrade, 13, 1985.

56.Djurovic D.: *The accuracy of the chain method solutions.* Publ. Dept. Astron. Belgrade, 14, 1986.

57.Djurovic D.: *Solar activity, atmospheric circulation and Earth's rotation.* "Figure and Dynamics of the Earth, Moon and Planets", Proc. of the IAU/COSPAR Symp. held in Prague, Czechoslovakia, 1986.

58.Djurovic D., Pâquet P.: *Short-term variations of the Earth's rotation and solar activity.* "Earth's Rotation and Reference Frames in Geodesy and Geophysics", Proc. of

the IAU Symp. held in Washington, U.S.A., 1986.

59.Djurovic D., Pâquet P.: *Solar origin of the 50–day fluctuation of the Earth's rotation and the atmospheric circulation.* Astron. Astrophys. **204**,1988.

60.Djurovic D., Pâquet P.: *A 120-day Oscillation in solar activity and the geophysical phenomena.* Astron. Astrophys. **218**, 1989.

61.Pâquet P.,Dehant V., Djurovic D.: *The 4-month fluctuations observed in the Doppler geodetic height and other solar and geophysical phenomena.* Proc. Internat. Geod. Symp. on Satellite Geodetic Positioning held in Las Cruses, U.S.A. , 1989.

62. Djurovic D.:*Pseudo-harmonic fluctuations of a random process generated by Labrouste transforms of class* $\Pi(s)L$. Publ. Dept. Astron. Belgrade, 17, 1989.

63. Djurovic D.: *Pseudo-harmonic signal variations generated by Labrouste transforms of the class* $\Pi(T)$. Publ. Dept. Astron. Belgrade 17,1989.

64.Djurovic D., Pâquet P.: *A quasi-biennial oscillation in solar activity and geophysical phenomena:preliminary results.* Publ. Dept. Astron. Belgrade, 18,1990.

65. Djurovic D.:*Solar activity and relationships between astronomy and geosciences.*Publ. Dept. Astron. Belgrade, 18, 1990.

66. Djurovic D., Pâquet P.: *Variations common to the interplanetary magnetic field,the zonal atmospheric circulation and the Earth's rotation.* Quater.J.Royal Met. Soc.,London, **117**, 1991.

67. Djurovic D.: *Discrete Fourier transforms of the series with randomly missed data:experimental tests.* Bull. Astron. Obs. Belgrade, 145, 1992.

68. Djurovic D.: *The least-squares and Wittaker-Robinson-Vondrak method of filter design in the complex deconvolution of data series.* Marees Terrestres: Bull. d'Informations,Centre International des Marees Terrestres, Bruxelles, 113, 1992.

69. Djurovic D., Pâquet P.: *Quasi-biennial oscillation in green corona activity and Earth's rotation.* Astron. Astrophys. **277**, 1993.

70. Djurovic D., Pâquet P.: *The frequency composition of the Madden–Julian oscillation. An indication of the solar activity contribution to the global atmospheric circulation and Earth's rotation.* Solar Physics **152**, 1994.

71. Djurovic D., Pâquet P., Billiaud A.: *New indications for the solar origin of the 50-day cycle in the atmospheric circulation and Earth's rotation.* Astron. Astrophys. **288**, 1994.

72. Zhen Nian Gu, Djurovic D, Pâquet P.: *The 50-day oscillation in the Earth's rotation,atmospheric angular momentum and solar activity.* Bull. Astron. Obs. Belgrade 152, 1995.

73. Djurovic D.: *Present status of Astrometry.* Bull. Astron. Obs. Belgrade, 155, 1996.

74. Djurovic D., Pâquet P.: *The common oscillations of solar activity, the geomagnetic field and Earth's rotation.* Solar Physics **167**, 1996.

75. Damljanovic G., Pejovic N., Djurovic D.: *The Chandler nutation for the period 1949–1985.* Bull. Astron. Obs. Belgrade 156, 1997.
